TYGAE MILINT Earth Day advocates that:

Our Planet's and Nation's Natural Capital – not Constitutions (until they constitutionally via legal personhood rights to nature, mandate the protection of their nations natural capital) – are the source of all physical, social, economic and cultural life.

Urgent Planetary Boundary Tipping Points Environmental Security Issues – (i) Loss of Biodiversity and Species Extinctions; (ii) Climate Change; (iii) Nitrogen Cycle; (iv) Ocean Acidification; (v) Changes in Land Use; (vi) Global Freshwater Use; (vii) State Shift in the Earth's Biosphere; (viii) Peak Non-Renewable Natural Resources: Scarcity; and (ix) Socialized Corporate Externality Costs: Trillion Dollar Thefts from Global Natural Capital Commons – are currently destroying our Planet's Natural Capital, with devastating impending and future 'scarcity-conflict' consequences.

To heal, restore and protect our national and planetary Natural Capital, and massively mitigate the future impending scarcity-conflict equation; by putting our nations and planet on a trend towards sustainable security; we must 'wake up' all citizens, corporations, politicians from all nations, who must learn to:

(A) 'Walk our Talk' to support our Nation's Police Force's to reduce crime, by (a) lowering our consumption to below carrying capacity (a consumption footprint of less than 10 global hectares); and (b) reducing all procreation activities to below carrying capacity (one or less than one child, per family).

(B) 'Walk our Talk' to support our Nation's Armed Forces (Army, Navy, Air Force, National Guard, etc) to reduce scarcity induced resource wars, by (a) lowering our consumption to below carrying capacity (a consumption footprint of less than 10 global hectares); and (b) reducing all procreation activities to below carrying capacity (one or less than one child, per family).

MILINT Earth Day was inspired by (i) Military Advisory Board Generals and Admirals[*] Military Appeal to American/World Citizens to 'Walk their Talk' of 'Supporting the Troops', to massively reduce their energy consumption, by "planting victory gardens, cutting down on fuel use, saving scrap metal and old rubber, sacrifices, or maybe just examples of common sense and prudent lifestyle changes," etc; and (ii) Military Officials[**] attempts to address the root causes of scarcity induced conflict, by expressing their concerns about Environmental Security issues of overpopulation and overconsumption's role in inducing scarcity and conflict.

Disclosure: Please also note: (i) The National Security Agency and KGB/FSB have had, and continue to have, express written permission to monitor all my communication since 2002. (ii) In military court proceedings (USCAAF and US Army 1st Judicial Court) in the case of Bradley Manning, the then CIA director General (Petraeus) was granted express written permission to order my assassination should I violate my oath to 'walk my talk' to support the troops, by consuming or procreating above carrying capacity levels.

Memo to South African and International White/Black Consumptionist Guilt Corporate Whore Editors and Journalists:

TYGAE MILINT Earth Day and CommonSism Anarcho Primitivist Ecologists and Feminists Press Release:

Fk Mandela, the Blood Thirsty Foxy Liberals Capitalist Pawn; let the Corporate C**k-S*cking War is Peace Whore Patriarchal Terrorist die in peace.**

South African and International Liberal Capitalist Civilized Patriarchal Media War is Peace Whores – such as the Mail and Guardian – want the world to believe South Africans are 'watching and waiting' for news on Mandela's Health, 'at his bedside united in hope'.

For the Record:

CommonSism Primitivist Ecologists and Feminists consider Mandela to be a Foxy Liberal Capitalists Pawn: a two-faced War is Peace Whore Civilized Patriarchal Terrorist. Let the Civilized Patriarch Corporate Dirt Capitalist Terrorist War is Peace Whore die in peace.

[I] **Blood Thirsty Foxy Liberals Capitalist Terrorist Pawn:** Mandela could have ended Apartheid Non-Violently by negotiating a peace settlement with the Apartheid regime, whereby Africans offered to breed below carrying capacity, in exchange for Boers consuming below carrying capacity. Boer history is proof of conservative Boers willingness to live simply off the land, it is English and Afrikaner corporate capitalist liberals who prefer to consume as if the earth is flat and resources are infinite, while breeding more and more impoverished slaves on their welfare vote farm slavery plantations; to keep themselves in power.

[II] **Capitalist \$ Worshipping Dirt Terrorist**: Unlike Felix Dzerzhinsky, Mandela was no Terrorist in support of Communism; Mandela was a terrorist to become a Millionaire, the dirt of modern life. You want a real Communist Terrorist Hero: Try Felix Dzerzhinsky, he lived and died, poor living simply, for his Communist Principles. Mandela shall die a Multi-Millionaire Corporate C**k-s*cking Dirt Terrorist. Felix Dzerzhinsky died as a poor honourable Communist Terrorist.

[III] **Civilized Patriarch**: Mandela's Civilized Patriarchy GDP/Growth Agenda: Lord\$ of War profit from the ethnic/religious/etc conflict resulting from – generally speaking – African/Islamic/etc Breeding War civilized patriarchs incapacity to breed below carrying capacity & Western/etc Consumption War civilized patriarchs incapacity to consume below carrying capacity.

[IV] **War is Peace Whore**: Since 1994 Mandela, and the Mandela Foundation have ignored, silenced and endorsed the censorship of evidence proving Tutu's Truth and Reconciliation Commission to have been a fraud, which deliberately ignored the ecological evidence for overshoot and its consequent scarcity induced by overconsumption and overpopulation, as a source for South Africa's political violence. Mandela and the Mandela Foundation continue to endorse Constitutional Court Corruption, by Concourt Justices who refuse to process an application for review of Tutu's TRC Fraud (CCT: Alien on Pale Blue Dot v. Afriforum, TAU-SA, ANC, Mandela, Tutu, De Klerk, et al)
